# Emotional Character Kit

If our listeners can't SEE a character's emotions, how can we show them how a character is feeling? Through DIALOGUE: what they say.

Create a character and give them a line that shows the audience how they really feel.

**Draw** your character doing the action from the speech bubble!

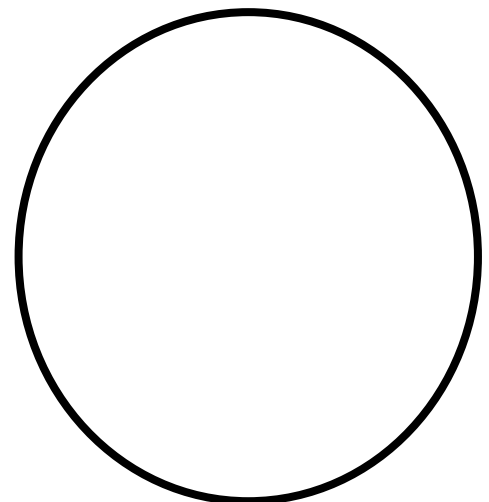

I feel so \_\_\_\_\_  
emotion

that I'm going to \_\_\_\_\_  
action

\_\_\_\_\_!

**Why** does this character feel this way?

**CLOSEUP!** What does the character's **FACE** look like when they feel this emotion? Draw it here!
