# Thank You Note

A **hero** is someone who works very hard to help solve a big **hero-sized problem**. We see them in movies wearing capes and flying around, but there are many real-life heroes too. Right now, there are many **essential workers** who are out in the world working to get us the things we need. We think they are pretty heroic, and deserve a Thank You Note! Some of them even come to your house so you can stay safe! You can fill out this Thank You note template and give it to someone in your life who is helping you. You could leave it in a mailbox, or send it in the mail! (Of course, be sure to be safe and wash your hands!)

Some ideas of essential workers to thank are:

- postal workers
- sanitation workers
- grocery store staff
- delivery people
- police and firefighters
- pharmacy staff
- security and building workers
- electric and water workers
- gas station staff

cut here, and draw on back if you want!
