

# Invent a Time Machine

Give it a Listen:

Season 3, Episode 11: Humming/Time Trap

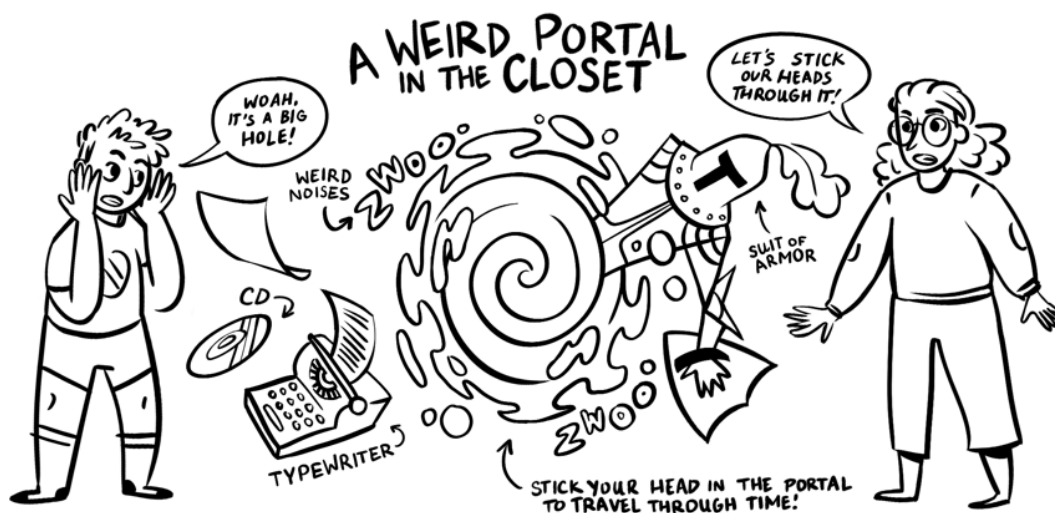

**What's this activity about?** Designing your own time machine!

**What stuff do I need to do it?** Pencil and your Creator Club notebook, or something else to write on

## How will you travel through time?

In the story "Time Trap," by a kid from Oregon named Jaeger, two kids discover a time portal in their closet, and use it to travel to the past and the future.

If you could travel through time, how do YOU imagine it would happen? Would you find something mysterious and unexpected, like a portal in a closet? Would you invent a vehicle to travel in, that looks a like a car, or a spaceship? Maybe you'd invent a big machine with lots of dials and levers and gadgets attached? Or would you prefer something extremely weird that nobody has thought of before? Could it be an animal, or plant, or imaginary creature that helps you travel through time? Could it be a donut??? When you get an idea, draw it and label the most important features! Here's an example, based on the portals from "Time Trap."

We want to hear from YOU!
